Introduction

- Groundwork
- Case Study 1 – The Ouseburn
- Case Study 2 – Wyke Beck
- Case Study 3 – Tyne Estuary Partnership
- Building effective multi-agency partnerships
 - Funding Options

Groundwork

An environmental and community regeneration charity, committed to local delivery for over 30 years.

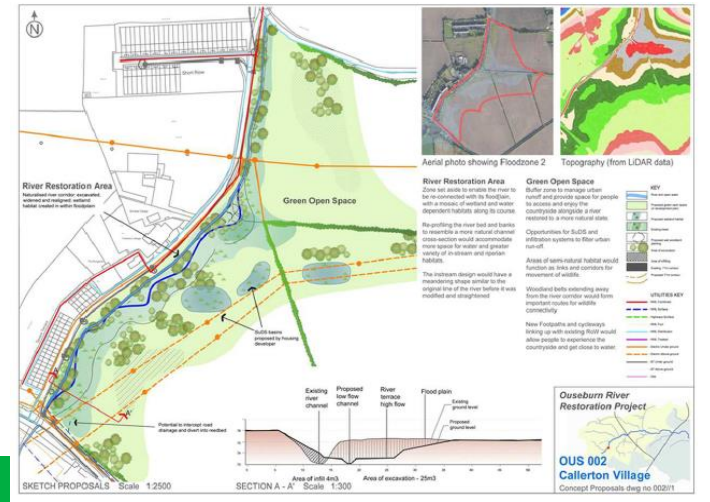

Our vision is of a **society made up of sustainable communities which are vibrant, healthy and safe**. We deliver action for:

- » Improving People's Prospects
- » Creating Better Places
- » Promoting Greener Living

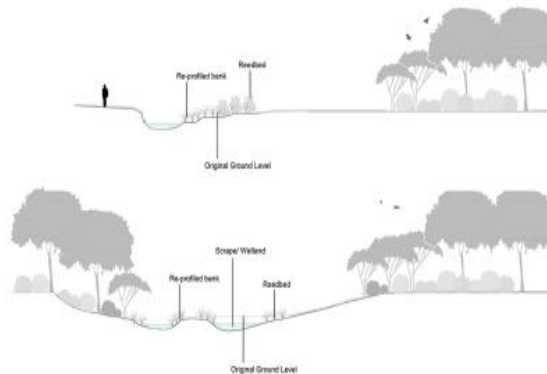

Case Study 1 – The Ouseburn

- 2 year river restoration scheme addressing WFD failures
- Delivered in partnership
- Added value through £80,000 HLF grant, community engagement and school education

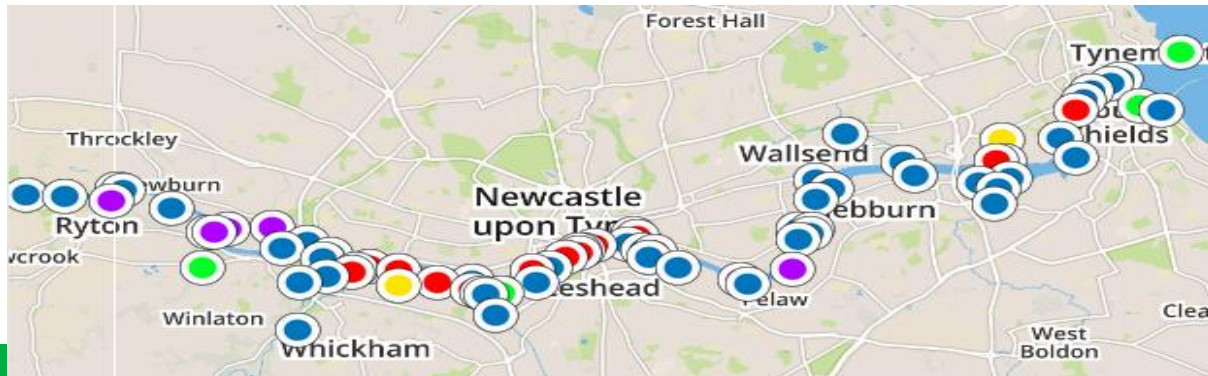

Case Study 2 – Wyke Beck

- Natural Flood Management Scheme
- Delivered in partnership
- Reduce flood peaks, enhancement of green infrastructure and allow broader engagement

Case Study 3 – Tyne Estuary Partnership

- » Development of a new partnership
- » Estuary Enhancements
- » Environmental and economic development of the iconic Tyne Estuary
- » Over 70 sites identified, 8 priority sites

Building effective multi-agency partnerships

- » Broad engagement
- » Multi-modal approach
- » More than a sum of its parts
- » Varied funding options

Tyne Rivers Trust
